

Ref.: ICASSCT/2024/CFP1

Date: 08.02.2024

Dear Sir / Madam,

Greetings!

I take immense pleasure to inform you that the **"Second International Conference on Advances in Smart Sensors, Signal Processing and Communication Technology 2024 (ICASSCT 2024)"** will be held in Goa, India during 22 - 23, March 2024. April 2024. A major objective of the conference is to drive innovation in every aspect of advancements in sensors, signal processing and communications. The conference follows extensive blind review process and selects best of the papers for the presentation which includes technical papers, tutorials, workshops and industry sessions designed specifically to advance technologies, systems and infrastructure. The conference aims to pursue the progression from communication and information theory through to the implementation, evaluation and performance improvement of practical communication systems using signal processing technology. ICASSCT will be an excellent forum for presenting research into topics ranging from those of the physical layer to the application layer. It also provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of sensors and signal processing in communication systems. All aspects of the protocols and processes required for the future communication systems to operate better and the applications to utilize the full potential offered by the current and the emerging networking infrastructure are also encompassed. The conference will be held in HYBRID MODE.

ICASSCT 2024 invites full length original research contributions from science / engineering professionals from industries, R&D organizations, academic institutions, government departments and research scholars from across the world. Full length original research contributions and review articles not exceeding six pages as per the AIP manuscript template shall be submitted. AIP manuscript template shall be found in the website. The manuscript should not have been published in any journals/magazines or conference proceedings and not under review in any of them. Further, the manuscript should contain the name of the corresponding author with email id and affiliation of all authors.

I therefore request your kind co-operation by encouraging the faculties, researchers and graduate students from your reputed institute to take part in the conference by contributing papers on their ongoing research work. ICASSCT is a great opportunity for them to present their research among the international peer researchers and develop the professional network to shape their future.

Thank you

With best regards

Prof. Dr. Jivan S Prab

Conference Chair, ICASSCT 2024

Publications

with all the accepted papers will be published in the following AIP Conference Series

AIP Conference Proceedings

A Conference Proceedings Journal
